

# MetaStock Professional

## MetaStock Pro Quick Feature Guide

### Expert Advisor™

Get insights from top industry experts. Allows you to create alerts based on price, volume, and indicators. Automate your analysis and trading systems.

### Indicator Builder

Create and plot your own indicators.

### OptionScope®

Develop option trading scenarios.

### Enhanced System Tester

Create, test, optimize and compare trading systems. Employ multiple security/multiple system testing.

### The Explorer™

Scan thousands of securities to find the winners, according to your criteria.

### Point and Click Help

Click on anything and get instant help, explanations, or interpretations.

### Standard Interface

MetaStock uses the standard controls and interface developed by Microsoft. You already know how to get around in MetaStock!

### Smart Charts™

MetaStock automatically saves every detail of your charts. You can also save charts as layouts (securities stay the same) or templates (analysis stays the same).

### 9 Charting Styles

With 9 charting styles, you get additional perspectives on the market that others don't have.

### Docking Toolbars

Place these toolbars anywhere on your screen for fast, convenient access. For applying line studies, drawing tools, text, and Zodiac and other symbols.

### Movable Data Window

Position your pointer anywhere on a price plot for a quick readout. This window can be docked or positioned anywhere.

### Individual Chart Toolbars

Each chart has its own toolbar for instant changes. Zoom, cycle through securities, refresh the data, and change the time period, all on the fly!

### Custom Toolbar

Programmable direct links for instant access to your favorite layouts, templates, programs, and web sites.

### Instant Change Toolbars

Change colors, line styles, and line widths to fit your trading style.

## Looking to improve your real-time trading results? Then look to MetaStock Professional!

MetaStock Professional is the real-time version of MetaStock, specifically for real-time traders! MetaStock Professional has been helping real-time investors make better trades for over five years. It's been selected as the best analysis software by the readers of Stocks and Commodities magazine for the past three years.

MetaStock Pro offers the most powerful money-making tools to help you find better trading opportunities, no matter your experience level. It has the ability to reduce the profit-killing emotions of greed and fear from your trading. It can chart and analyze stocks, futures, commodities, currencies, mutual funds, indices, bonds, and any type of data you can feed into it.

MetaStock Pro contains all the tools found in MetaStock, with the only difference being that MetaStock Pro can handle the real-time quotes and gives you intraday time frames.

## MetaStock Pro's tools can help you make better real-time trades!

**View 9 styles of crisp clear charts-** Why do we offer nine different chart styles? You may only use two or three styles, but many investors find that occasionally trying a new style gives them a perspective on the markets they had not seen before. No other analysis software gives you as many views of the market as MetaStock Pro. These nine charting styles include bars, lines, candlesticks, candlevolume, eqivolume, kagi, renko, three line break, and point & figure.

**Test your trading systems on historical data** — Test multiple trading systems on multiple securities. You'll get buy and sell signals based on the trading system that best matched that security. These signals free you from making decisions based on harmful emotions like fear or greed. This tool can also help you match a security to the trading system that has shown to work best with in the past.

Knowing this can sure help put the odds of winning more in your favor.

**Pre-built trading systems** — Immediately start system trading with MetaStock Pro's large library of built-in trading systems! You'll find these systems easy to use and very reliable. Additional systems are available for purchase. Or you can create your own if you feel comfortable doing that.

**Scanning & filtering to find trade candidates** — Scan thousands of securities to find prime trading opportunities. There are numerous built in scans, like the system tester, or you can create your own scans. This screening can be placed in the background, freeing your computer for other tasks!

The Explorer™ scrutinizes thousands of securities to find the ones that meet your criteria. You can also use The Explorer to calculate the value of your favorite indicators, generate a short list of potential money-makers, find the biggest gainers and

Equis International  
90 S. 400 W., Suite 620  
Salt Lake City, UT 84101  
(801) 265-8886 or (800) 882-3040  
www.MetaStock.com

most actives, or generate daily buy and sell signals—all based on your criteria.

The Explorer has 26 predefined Performance System explorations for instant scanning capabilities. Eight volume-based explorations let you search for a variety of high volume stocks.

You can choose from three different search modes:

- Instruct The Explorer to run one exploration on the results of another
- Use a single, customized security list for all explorations
- Or use an individual security list for each individual exploration

Now, you can use readily accessible online data to perform your explorations. Plus, MetaStock automatically saves the exploration results from the online data in your favorites folder. Nothing could be more simple and convenient when you want to find out what you should be trading.

**Expert advice** — A built-in library of experts will help you with your specific trading situation, will place buy and sell signals, will identify trends, highlight price bars, place a palette of symbols, set alerts, and identify 31 different candlestick patterns.

You can discover what the experts would do in your specific trading situation. We've captured the trading styles and rules from 9 trading experts, plus developed a number of our own, to create 60 built-in "experts" you can apply to your trading.

You can see when these experts would buy and sell in every one of your trading situations for more confident trading. You can create your own "experts" too. Here are the other tools found in MetaStock Pro's Expert Advisor.

*"I have been using MetaStock for 2 years... My profitability went up dramatically with the scanning tool found in MetaStock. I have gone from making \$3000 -\$4000 a month to making over \$30,000 last month. I also like using MetaStock because MetaStock's customer service is the best I have seen anywhere."*

*R. Warner, Tampa, FL (August 2004)*

- Expert Alerts- Pop-up alerts keep you in touch with current trading conditions. Use simple price and volume alerts or complex indicator triggers and multiple condition alerts.
- Expert Commentary- This is a fully customized report that shows you in great detail how your expert assesses the chart you are looking at. Is it a buy, sell or hold situation? Why? You'll get "expert" insight gained through years of research and real-world trading, simplified to a click of the mouse. You can even create your own commentary reports, based on your own unique style.
- Expert Highlights- Color code individual price bars or significant chart patterns. You specify the conditions when you want your price bars to change color so you can analyze your charts much easier! Changes in the market will grab your attention.
- Expert Symbols- Buy and sell arrows, text, or any other symbols in MetaStock's symbol palette automatically flag special conditions according to your criteria.
- Expert Trends- You'll see the bullish, bearish and neutral trends with the ribbon displayed at the bottom of your chart.

You can also use the Expert Advisor to identify and label 31 candlestick patterns. You can even tell MetaStock which candlestick formations you want identified.

The Expert Advisor contains tremendous power for helping you make better trades.

**Indicator library** — Over 200 built-in indicators and line studies ensure you will find the indicators that work best with your trading style. This collection includes over 80 indicators for Broad Market analysis.

**Powerful indicator builder** — Custom-create your own trading systems and indicators. Choose the functions you need from a vast library which saves you valuable time.

**Free technical support**— You'll always find a friendly technical support representative ready to help solve your problem. You can call, send an email, or contact them through chat. And best of all, this service is FREE to our registered MetaStock customers.

**Ironclad guarantee** — MetaStock Pro comes with a 30 day ironclad money-back guarantee. During this time you'll see just how much MetaStock Pro can help you identify profitable trades and reduce your trading risk. When you receive the software, give our support department a call and have them walk you through the install and setup of the program. This way you'll be up and running in no time.

### Superior Data From MetaStock QuoteCenter

MetaStock Pro gets its data from MetaStock QuoteCenter which is powered by Reuters, the leader in real-time data delivery. This real-time platform is incredibly powerful, offering premium quality quotes and news at an individual investor price.

QuoteCenter's historical data is amazing. You'll get 30 days of historical tick data, 250 days of intraday history, 20+ years of daily history and 23 years of fundamental history. This depth of history gives you more accurate system tests in your MetaStock Pro.

*"I like MetaStock's drawing interfaces enormously. I like being able to easily put several charts together and draw a vertical line through all of them. That sounds simple, but surprisingly few packages allow you to do that."*

*Dennis D. Peterson*

*Technical Analysis of Stocks & Commodities Magazine  
March 2005*

QuoteCenter is actually data and software that when paired with MetaStock Pro gives you the ultimate trading platform. It has an incredible amount of information available including quotes on all kinds of instruments from all over the world, technical analysis and charting, and news from Reuters and hundreds of other news suppliers.

### Online QuoteCenter Training

There are 4 free online training sessions available when you order MetaStock QuoteCenter. This makes it easier for you to learn QuoteCenter than reading a large manual. These sessions will walk you through the different aspects of the program so you will be confident with the tools

you have. Attend these sessions as many times as you like to make sure you are as comfortable with QuoteCenter as possible.

MetaStock Pro has a tremendous array of tools to help you make smarter real-time trades. It can do wonders for your trading. For further details please refer to the MetaStock and QuoteCenter brochures. Order your copy of MetaStock Pro today.
